

Training and Placement Cell

Bir Tikendrajit University, Manipur

The Training and Placement Cell of Bir Tikendrajit University plays a pivotal role in shaping the career trajectories of students by bridging the gap between academic learning and professional practice. The Cell is dedicated to preparing students for successful careers through comprehensive training, industry engagement, and continuous mentoring.

Our mission is to ensure that every student of Bir Tikendrajit University becomes professionally competent, industry-ready, and globally employable. We emphasize not only academic excellence but also the holistic development of our students through structured programs in career counseling, aptitude enhancement, soft skills, communication, and personality development.

The Cell maintains strong linkages with reputed organizations, corporate houses, and government sectors to facilitate internships, industrial visits, and campus recruitment drives. Through these collaborations, students gain valuable exposure to industry expectations and workplace culture.

In addition, the Cell regularly organizes guest lectures, expert talks, mock interviews, and workshops in collaboration with industry professionals and alumni. These initiatives help students understand real-world challenges, refine their professional outlook, and build confidence.

Functioning under the leadership of the Training and Placement Officer (TPO), along with a team of faculty and student coordinators, the Cell is committed to nurturing young talents and connecting them with suitable opportunities in the corporate, public, and entrepreneurial sectors.

Core Objectives

- Facilitate internships, training, and placement opportunities across diverse sectors
- Enhance employability through targeted skill development programs
- Build strong industry–academia collaborations
- Guide students towards higher education and competitive examinations
- Promote entrepreneurial initiatives and innovation

At Bir Tikendrajit University, the Training and Placement Cell strives to empower students to pursue meaningful careers, contribute responsibly to society, and emerge as future leaders in their respective fields.
